

Marinelli Beaker

Manufacturers of beakers for research, nuclear,
environmental, and food monitoring industries

Available
in many
different
sizes

Two lid styles:
Snap-on
or
Screw-top

Kolga Marinelli Beaker Specifications

Description:

The patented Kolga Marinelli beakers are available in many different sizes with two lid types: the screw-top style or the traditional snap-on style. The Kolga beakers have a unique patented tight-fitting lid to prevent spillage with a built-in gripping handle to facilitate easy removal of the beaker from the sample counting shield.

Both lid versions have been tested for air tightness at least 1 psi positive pressure for 24 hours. The screw top versions have a built in sealing ring to assure leak proof operation for sensitive applications. The KB Model beakers are available for up to 3.5 inch detectors.

Please see the chart below for the correct part number for your application:

Model	Maximum Detector Size in/mm	Volume ml	Inner Diameter (d) in/mm	Outer Diameter (D) in/mm	Inner Height (h) in/mm	Outer Height (H) in/mm	Lid Type
KB-500-C	3.25/82.5	500	3.28/83.3	5.25/133.3	3.00/76.2	4.625/117.5	Snap-on
KB-1000-C	3.25/82.5	1000	3.28/83.3	5.25/133.3	3.00/76.2	6.125/155.6	Snap-on
